Josef: Structured documentation, still need to look through content of it. Made a review of the year. Constructed goals for 2015. Wrote some posts and did some work for Spanish translation. Will send newsletter today. updated cover pic on our fan page

Lisa: Made and sent the Xmass card (forgot the website), contacted Zbigniew (invited him for the meeting), reinitiated the meeting with Gefion/Eva, spoke to Thijs Markus reg. guest article (nothing yet), updated Disqus plugin, invited Thomas Gaul to write a guest post (he declined due to health issues, referred back to Koen), Tweeted Marius Jopen poster and asked him to do an interview/guest article, 'project lexi'.

pakki: still writing this regional election 2014 article of pirate party northrhine westfalia, but struggling with free time... as always XD additional I started an email conversation with Lexi Alexander about her story and how to support her from a pirate view. Still work in progress, as on every level ;)

6) Lexi Alexander

- How do we handle contributors under attack? Ask Lexi. Get better with direct contact and asking what is needed from controversial articles
- She's under a LOT of pressure, being attacked quite viciously (MPAA?), losing work, etc. She's given up on the pirate movement, very disappointed and angry.
 - Here's an overview of (part of) the back-story. The Disqus comment is what is the focus right now, the last podcast link is where the comment ('letter') is being discussed in a vicious way. No need to listen to all of them, just reading the letter and listening to the final podcast should suffice.

 - <http://geeknation.com/podcasts/the-movie-crypt-ep-81-director-lexi-alexander-part-2/> (podcast 2)

 - <http://geeknation.com/podcasts/the-movie-crypt-ep-84-goodbye-2014/> (podcast about comment to podcast 2)
- Social media is a hard channel because it stays and brings critique. Moves fast.
- Lisa will write a critical article about the pirate movement and its lack of support (tip from Josef: make it practical, *how* can they help?)
- Taskforce: Patrick in touch with her right now, Andrew expressed an interest to be involved.

7) Upcoming/past events that need articles

- EuWiKon (Europäische Wirtschaftskonferenz) in Hamburg the 17th & 18th of January: <http://piratenbrandenburg.org/2014/11/euwikon-2015-nimmt-fahrt-auf/> write with PREVIOUS - maybe ask anyone going to write an article (pakki will ask some German pirates) **Michael Renner** <renner@flaschenpost.piratenpartei.de>
- Security policy conference "Sicherheitspolitik nach Snowden" in Munich the 24th & 25th of January: http://pirate-secon.org/media/Seconflyer_DE.pdf - pakki will see, if there is a german pirate writing an article about it afterwards (Teasing article in german language: <http://kompass.im/2015/01/psc-2015-terror-mythen-und-snowden-sicherheitspolitik/>)
- Data retention conference the 8th of February in Düsseldorf (pakki present, will write)
- Connecting conference between all german state parliamentarians (44 people) the 9th of February in Düsseldorf (pakki) Might not be interesting for PT, maybe if it can be generalized a bit and be an article about how to work together, maybe relate it to global movement.
- PPAR GA -> waiting for bio + image. Can publish after holidays (Josef picks this up)

- PPGR Elections -> Ask Stathis to write something short, or get another Greek pirate to do it (josef will ask)
- Article on funding by different parties
- <http://privatepaste.com/a0fc003a34> ? (lots of research needed, free for all)
- Jelena (or other, Lisa might have backup if Jelena doesn't write): how to social media (general). (source: <https://www.facebook.com/groups/265410520258976/permalink/584918291641529/>)
